Hot Cocoa and Homesteading

Dec 2nd-6th, 6pm

We'll be covering topics like modern homesteading basics, raising backyard chickens, gardening essentials, canning, and more.

This will be a fun and hands on way to either start your journey into homesteading or continue into another chapter of homesteading.

Homesteading today is a lifestyle! Do you have a self-sufficient mindset? Do you grow your own foods, create products for your household, produce your own energy, or are you a DIYer who takes pride in repurposing items? Modern homesteading is about reconnecting with nature, fostering independence, and embracing sustainable practices. So, if you are gardening, foraging, making soaps, etc, you are homesteading!

This is a trend that is growing as many are searching for a lifestyle with purpose. If any of this describes you, follow us as we tell our homesteading stories and offer platforms that will assist you on your path to being more self sufficient.
